

Fall 2009 Training

from Instructional Technology

oit.washcoll.edu

Welcome to a New Semester

Instructional Technology within OIT is happy to welcome you to the Fall 2009 semester!

Fall 2009 training will continue on the flexible path set in the Spring. Our focus will be on **online training** via Lynda.com, **online help** with Live Chat and in person project assistance through **open labs** in the Beck Lab and **consultation** at **Multimedia Production Center**. We also encourage you to **ask us about training in the classroom** - or bringing your classes to us!

Visit us online at oit.washcoll.edu to learn more.

Improved Training & Tutorials Page

Instructional Technology has overhauled the Training & Tutorials page at oit.washcoll.edu.

Get access to info about all current training, links to the best online tutorials from across the web and information about how to get connected to support.

To visit, just click the **Answers** link from any OIT website, then click **Training & Tutorials**.

Custom Training for Classes

Whether you want to expose your GRW students to video essays, teach your Biology students how to use Photoshop for microscopic analysis or have your Business students go beyond the basics with PowerPoint presentations, the staff of Instructional Technology can help you create tailored workshops for your classes.

We offer training for all technology you may want to bring into your course as well as consultations on your ideas. We even offer Final Cut Pro certification training! Some popular topics:

- Video production
- Video editing - iMovie & Final Cut
- Effective presentations
- Image editing - Photoshop

Through the **MPC's** loaner equipment pool and our faculty inventory, we have the tools you and your students will need to put our training into practice!

To get started, contact Instructional Technology:

Nancy Cross	(410) 810- 7167 / ncross2
Brian Palmer	(410) 778- 7864 / bpalmer2
Nick Smerker	(410) 810- 7421 / nsmerker2

Visit us online for more info!

Training by Request

In an effort to get training to the WC campus community only when it is needed, Instructional Technology will be taking requests for workshops. If you, your department or your group need a specific training topic covered, please contact us directly to make arrangements. Past semesters' training by request has included:

- InDesign training for publications
- Smartboard training for educators
- Turning Technologies clicker demos
- Blackboard 9 open workshops
- Zimbra calendar, collaboration & more

Live Chat Support

Live Chat offers you flexible option you may not have thought of for connecting with the exceptional support resources already available through OIT.

With Live Chat, you can get instant help with your computer, work on a project with an expert or allow consultants to walk you through your own computer, step by step.

To get started, visit oit.washcoll.edu/livechat

Open Labs - Beck & MPC

Get one on one help with the experts!

As always, **every Monday afternoon from 1:30 - 4:30**, Beck is an open lab. Bring your projects or stop by for help from Instructional Technology staff.

The MPC will be open for project help with student pros, too. To learn more about the MPC visit mpc.washcoll.edu

Online Training with Lynda.com

Working on a project and need help with a specific step? Want to learn a new software package on your own time? Lynda.com is the resource for you.

OIT is pleased to offer **no-charge access to online training** from Lynda.com. With over 450 courses presented in more than 30,000 easy to follow video clips, Lynda.com is a powerful tool for technology learning.

To sign up, visit:
oit.washcoll.edu/lynda
